PROFILE

Senior React & Full Stack Developer with **10+ years of experience** delivering high-performance web and mobile applications across fintech, consulting, and global markets. Proven expertise in **leading React development**, mentoring teams, and building **scalable component libraries** that drive maintainability and speed. Skilled in Laravel, PHP, and API design, with a strong record of end-to-end project ownership, including deployments, code reviews, and team leadership. Recently certified in **Generative AI tools (ChatGPT, Claude, DeepSeek, DALL-E)**, bringing innovative approaches to development, automation, and content creation.

SKILLS

Frontend development

- React
- React Native
- Redux Toolkit
- TypeScript

Fouad Albadin

EMPLOYMENT HISTORY

April 2022 - Current

Senior React Js Developer GO Markets | Melbourne, Australia

- Led the React frontend team, reviewing pull requests, approving deployments, and ensuring smooth delivery across multiple projects.
- Built and standardised **30+ reusable React components**, cutting duplication and improving maintainability by **25%**.
- Improved app performance by **40%** with lazy loading, code splitting, and advanced render optimisation.
- Converted legacy PHP scripts into standalone **Composer packages**, streamlining integration across Laravel projects.
- Designed scalable state management with **Redux Toolkit + Thunk**, enhancing data handling across enterprise-level apps.
- Mentored junior developers, increasing delivery speed and reducing frontend bugs by **20%**.

July 2021 - April 2022

React Js Developer Tata Consultancy Services | Australia

- Developed and maintained React interfaces, translating wireframes into functional UI components.
- Implemented **Redux state management**, improving scalability and maintainability.
- Enhanced UX by refining React component design and optimising performance.
- Conducted code reviews and integrated feedback from QA to boost quality and reduce defects.

January 2015 - July 2021

Senior React Native Developer Dot Design | Erbil, Iraq

- Delivered multiple cross-platform mobile apps with **React Native**, deployed to Google Play & App Store.
- Designed and developed **admin dashboards** with React + Redux for app management.
- Enhanced mobile app functionality with **React Native Context API**, improving state management and scalability.
- Led deployments and publishing processes for iOS and Android apps.

October 2018 - February 2020

Full Stack Developer Innovative | Erbil, Iraq

- Built mobile applications with **React Native + Firebase**, including **push notifications** via FCM.
- Integrated React Native frontends with **Laravel & MySQL backends**, ensuring seamless performance.
- Deployed apps on both Google Play and App Store, managing end-to-end lifecycle.

January 2014 - December 2016

- JavaScript (ES6+)
- Context API
- React Router
- Material-UI
- Chakra UI
- PrimeReact
- Storybook
- Responsive design
- Component architecture

Backend development and APIs

- Laravel, PHP
- MySQL, RESTful APIs
- Composer
- Firebase
- C#

DevOps and tools

- Git, GitHub, GitLab
- Webpack, Rollup, NPM, Yarn,
- CI/CD,
- App Store, and Google Play deployments

AI and automation

- Generative AI tools: ChatGPT, Claude, DeepSeek, Gemini, and DALL-E
- AI-assisted coding (debugging, refactoring, test generation, documentation automation)
- AI-driven content creation (technical tutorials, knowledge sharing productivity workflows)
- Prompt engineering

Best practices

- Code reviews
- Agile/Scrum
- test-driven development
- performance optimization
- mentoring, and team leadership
