Selected Projects

KitsConcerto UI Package

Cross-Platform UI Component Library

Private React and React Native component library (30+ components) with shared theming and Storybook documentation; powers the AlphaMatch web and mobile apps.

Storybook: <https://lmb-it.github.io/kitsconcerto>

AlphaMatch

Two-Sided Marketplace (Founder / Lead Developer)

- Marketplace connecting clients with traders, combining the freelance-matching model of platforms like Freelancer and hipages.
- Built the full stack end-to-end: Laravel backend and REST API, React Native mobile app, and React web dashboard and client portal.
- Powered across web and mobile by a shared in-house component library for consistent UI and faster delivery.
- Live chat between users, Push Notifications, Location and more professional features
- Available on TestFlight upon request

Bassline

macOS Desktop App (Tauri)

Profile

Senior React & Full Stack Developer with 10+ years of experience delivering high-performance web and mobile applications across fintech, consulting, and global markets. Proven expertise in leading React development, mentoring teams, and building scalable component libraries that drive maintainability and speed. Skilled in Laravel, PHP, and API design with a strong record of end-to-end ownership spanning deployments, code reviews, and team leadership. Integrates modern AI tooling into daily workflows to accelerate delivery and improve code quality.

Technical Skills

- **Frontend:** React, React Native, Redux Toolkit & Thunk, TypeScript, Storybook, UI component libraries, responsive design
- **Backend:** PHP, Laravel, RESTful API design, MySQL, Firebase
- **Cloud & DevOps:** AWS (CI/CD, KMS, secrets management), Webpack, Rollup, Git / GitHub / GitLab
- **Other Languages:** C#, Java, Python
- **Practices:** Test-driven development, Agile / Scrum, code reviews, mentoring, team leadership, App Store & Google Play deployments

Professional Experience

Senior React Developer

Apr 2022 - Present

GO Markets, Melbourne, Australia

- **Led** frontend delivery across multiple **React** projects, owning pull-request reviews, release approvals, and production deployments in a fast-paced, regulated environment.
- Architected and standardised **30+ reusable React components**, reducing code duplication by **25%** and establishing consistent UI and architectural patterns across teams.
- Improved application performance by **~40%** through lazy loading, code splitting, memoisation, and advanced render optimisation strategies.
- Designed, implemented, and maintained **AWS-based CI/CD pipelines**, ensuring reliable, repeatable, and secure build and deployment workflows across environments.
- Implemented and managed **AWS KMS** for encryption and secrets management, working closely with infrastructure teams to enforce secure handling of sensitive data.
- Refactored legacy PHP scripts into standalone **Composer packages**, improving modularity, reuse, and integration across multiple Laravel applications.
- Designed scalable frontend state management using **Redux Toolkit and Thunk**, supporting complex data flows in enterprise-scale applications.
- Mentored and supported junior developers through code reviews and architectural guidance, improving delivery speed and reducing frontend defects by **~20%**.

React Js Developer

Jul 2021 - Apr 2022

Tata Consultancy Services, Australia

- Developed and maintained React interfaces, translating wire frames into functional UI components.
- Implemented **Redux state management**, improving scalability and

Desktop tool for DJs to organise music libraries, with AI-assisted batch tag editing and rule-based bulk file renaming. (In active development.)

Languages

- Arabic (Native)
- English (Professional)

Hobbies

- Violinist
- DJ / Music producer
- Content Creation

maintainability.

- Enhanced UX by refining React component design and optimising performance.
- Conducted code reviews and integrated feedback from QA to boost quality and reduce defects.

Senior React Native Developer (Freelance / Contract)

Jan 2018 - Jul 2021

Dot Design, Erbil, Iraq

- Delivered multiple cross-platform mobile apps with **React Native**, deployed to Google Play & App Store.
- Designed and developed **admin dashboards** with React + Redux for app management.
- Enhanced mobile app functionality with **React Native Context API**, improving state management and scalability.
- Led deployments and publishing processes for iOS and Android apps.

Full Stack Developer

Oct 2018 - Feb 2020

Innovative, Erbil, Iraq

- Built mobile applications with **React Native + Firebase**, including **push notifications** via FCM.
- Integrated React Native frontends with **Laravel & MySQL backends**, ensuring seamless performance.
- Deployed apps on both Google Play and App Store.

Full Stack Developer

Jan 2014 - Dec 2016

Banners, Damascus, Syria

- Wrote and edited web content, ensuring adherence to high standards and guidelines.
- Designed and maintained websites using various scripting languages and digital media tools.
- Managed website / database updates and implemented backup procedures for data recovery.
- Diagnosed and resolved issues identified through testing or user feedback, coordinating with appropriate teams for solutions.

Education / Certifications

Diploma | Information Technology

Jan 2022 - Jan 2024

RMIT University, Melbourne

Generative AI Tools Certification

Aug 2025

Coursiv.io, Online

Prompt engineering, AI-assisted coding, and workflow automation (ChatGPT, Claude, DeepSeek, DALL·E)
